

Western Valley P.R.O. Kids

WV P.R.O. Kids recognizes the importance of participating in recreation-based activities. Recreational activities can positively affect several dimensions of wellness, including physical, intellectual, emotional, spiritual, and environmental.

The goal of P.R.O Kids is to reduce the financial barriers that hinder youth (under the age of 18) from participating in sport, art, or cultural activities. The WV P.R.O Kids vision is for all children residing in their jurisdiction (Nackawic to Plaster Rock) to have an opportunity to participate in recreational activities.
